Costs and Limitations of Certified Health IT

Capability	Description of Capability	Costs or Fees *Types of costs or fees that a user may be required to pay to purchase, license, implement, maintain, upgrade, use, or otherwise enable and support the use of the implementation or use of the capability -OR- in connection with the data generated in the course using the capability*	Contractual Limitations *Limitations of a contractual nature (including developer policies and other business practices) that a user may encounter in the implementation or use of the capability -OR- in the connection with the data generated in the course of using the capability*	Technical or Practical Limitations *Limitations of a technical or practical nature that a user may encounter that could prevent or impair the successful implementation, configuration, maintenance, support or use of the capability -OR- prevent or limit the use, exchange or portability of any data generated in the course of using the capability*
The OneView application framework includes authentication, access control, authorization, auditable events, tamper resistance, audit reports, automatic log-off, emergency access, end-user device encryption and integrity. Relevant certifications criteria: [170.314(c)(1, 2, 3); 170.314(d)(1, 2, 3, 5, 6, 7, 8)] 170.314(g)(2, 4)	OneView is a web-based application providing reporting, analysis, and trending of healthcare information for clinical and business executives. OneView offers a complete solution from which healthcare information is presented, analyzed, consumed, and disseminated. A flexible architecture ensures that custom developed reporting solutions, including those that combine non-MEDITECH data, can be fully integrated into the OneView framework.	Requires a one-time cost, plus annual maintenance service fee. Licensing and annual maintenance is based on a unique tax identification number, per organization. OneView has the same pricing model matrix for all organizations. Discounts are provided to CAH and multi-site facilities. In addition to the OneView license, other vendor software or solutions are needed. Organizations are required to manage contracts directly with the vendor. Microsoft SQL Server relational database license. Microsoft Windows Server license.	None	None
The OneView Hospital Quality Package Relevant certifications criteria: Modules Tested: 170.314(c)(1, 2, 3); 170.314(d)(1, 2, 3, 5, 6, 7, 8); 170.314(g)(2, 4); Clinical Quality Measures tested: CMS009v2; CMS026v1; CMS030v3; CMS031v2; CMS032v3;CMS053v2; CMS055v2; CMS060v2; CMS071v3; CMS072v2; CMS073v2; CMS091v3; CMS100v2;CMS102v2: CMS104v2; CMS105v2; CMS107v2; CMS108v2; CMS109v2; CMS110v2; CMS111v2;CMS113v2;	The OneView Hospital Quality Reporting Package collects, analyzes, aggregates and presents data for review by clinical and quality staff. Data compiled can be used to meet attestation and/or electronic submission reporting requirements for several	Requires a one-time cost per submission program, plus annual maintenance service fee. Submission programs: - EHR incentive program (EH) - Inpatient Quality Reporting (IQR) - The Joint Commission (ORYX)	The OneView application framework is required to implement this capability.
